SUMMARY

Results-driven Software Engineer with 4+ years of experience delivering scalable solutions for global systems in e-commerce, hospitality, and B2B sectors. Strong focus on clean architecture, performance, and impact — with proven leadership in technical migrations, CI/CD practices, and cross-functional development.

EXPERIENCE

GAV RESORTS, *Software Engineer / Tech Lead*   *Goiânia, Brazil • Dec 2024 - Present*

• Led the successful rebuild and migration of a core legacy 'Voucher' system to a modern, scalable architecture, resulting in an 80% process efficiency improvement and a 45% cost reduction.
• Engineered robust full-stack solutions, integrated complex sales and partner workflows, and established comprehensive testing and CI/CD practices within a hybrid team environment.
• Implemented best practices in software engineering, enhancing system reliability and performance.

ZELLOR, *Software Development Engineer*   *Dublin, Ireland • Nov 2024 - Mar 2025*

• Successfully migrated a database and back-end, improving query performance by 50% and reducing storage costs by 30%.
• Contributed to core platform development (portal, Shopify app, embeddable carousels), increasing user sales by over 15% and reducing costs by 20% via autoplay strategy optimization.
• Established testing and deployment standards, enhancing system reliability and performance.

FARSOFT SYSTEMS, *Software Engineer*   Pouso Alegre, Brazil • *Aug 2023 - Nov 2024*

• Contributed to the migration of a large legacy CRM and ERP system, enhancing system reliability and performance by integrating REST APIs and applying DevOps practices.
• Developed system components with a focus on clean code and thorough testing, improving efficiency and maintainability.
• Implemented CI/CD practices, reducing deployment time by 55% and increasing system uptime.

PROJECTS

Cuidapet • **Flutter**

• Developed an app for pet care services, employing Modular Architecture with MobX and Flutter Modular for routing.
• Integrated Firebase (auth, analytics, remote config) and Google Maps API for location-based search and service discovery.
• Applied robust software practices (feature-based, repository pattern, service layer, security) for system reliability and optimal UX.

Barbershop • **Flutter**

• Developed an app for barbershop management, using Clean Architecture and Riverpod for state/dependency management.
• Engineered a multi-role system (admin, employee, customer) with features like booking & scheduling, using Dio and Shared Preferences.
• Implemented a user-friendly UI with calendar functionalities (Table Calendar & SyncFusion) and localization support.

SKILLS

Flutter • TypeScript • JavaScript • SvelteKit • React • Node.js • Nest.js • Go • PostgreSQL • MySQL • MongoDB • Firestore • Firebase • AWS • GCP • Docker • CI/CD • TDD

EDUCATION

Descomplica Faculdade Digital   *Jan 2025 - Dec 2028*
Bachelor's degree • **Computer Science**

AWS Cloud Practitioner   *Issued Mar 2025 - Expires Mar 2028*
Certification • **Amazon Web Services (AWS)**
